SUMMARY

Software Engineering graduate with cross-functional experience in operations, technology, project management, and AI development. Proven ability to take full ownership of projects from requirements to delivery while collaborating with developers, designers, and senior leadership. Strong analytical and structured problem-solving mindset with a high bias for action, clear communication, and a commitment to continuous learning and delivery in fast-paced, high-performance environments.

WORK EXPERIENCE

SQA & Project Management Intern | Intrapreneur *Sep 2025 – Dec 2025*

- Owned end-to-end QA and project coordination across web and mobile applications in a full Agile/Scrum environment.
- Identified 100+ bugs, wrote 50+ test cases; detected a critical security vulnerability (unauthorized admin deletion).
- Managed Jira workflows, sprint ceremonies, and implemented Jira to GitHub automation to streamline issue tracking.
- Collaborated with cross-functional teams (devs, designers, PM) and contributed to strategic sprint decisions.

AI Development Intern | Skill Hunger *Jun – Jul 2025*

- Built AI-powered tools using Python, NLP, and LLMs; developed Streamlit dashboards backed by Pandas DataFrames.
- Applied prompt engineering and NLP techniques; contributed to research and prototyping with measurable outcomes.

IT Instructor | Harbor Academy *Jul 2023 – Present*

- Teaching Python, JavaScript, web development, and databases to 50+ students; 10+ secured jobs/internships post-training.
- Developed structured curriculum; strong communication and adaptability across beginner-to-advanced learners.

Social Media Manager & WordPress Developer | Freelance *Dec 2022 – Present*

- Managed multiple client projects simultaneously content, campaigns, and deliverables across major platforms.
- Built WordPress websites; used AI tools (ChatGPT, Canva AI) for content strategy and performance optimization.

PROJECTS

AI-Powered Price Trend Analyzer | *Python · Streamlit · Pandas · Scikit-learn · SQLite*

- OOP-based multilingual dashboard forecasting commodity prices in Sindh using regression models; presented at GC University — Certificate of Participation.

SafeSafar – School Bus Tracking System | *Team Lead · Final Year Project*

- Led a team of 3 to build a real-time school bus tracking web app with SMS notifications; owned full project timeline, task delegation, and delivery.

Student Task Manager | *FastAPI · SQLite · JavaScript · HTML/CSS*

- Full-stack CRUD task management app with REST API backend (FastAPI) and vanilla JS/HTML/CSS frontend with SQLite persistence.

EDUCATION

Bachelor of Software Engineering | University of Sindh, Jamshoro *Feb 2022 – Feb 2026*

Relevant Courses: Software Project Management, Agile Methodologies, Data Structures & Algorithms, DBMS, Web Engineering, Software Engineering, OOP

SKILLS

Languages	Python, JavaScript, HTML, CSS, SQL
Backend/AI	FastAPI, Flask, REST APIs, Pandas, NumPy, Scikit learn, Streamlit, NLP, Prompt Engineering, LLMs
PM & QA	Agile, Jira, Sprint Planning, Backlog Management, Manual Testing, Bug Reporting, Regression Testing, UAT
Tools	Git, GitHub, Figma, Trello, Asana, Confluence, VS Code, Google Sheets, Oracle DB, WordPress
Soft Skills	Ownership & Accountability, Structured Problem-Solving, Cross-functional Collaboration, Communication, Adaptability

CERTIFICATIONS & RECOGNITION

Certified WordPress Developer (CWPD) | Certified Social Media Management (CSMM) | Shield of Appreciation 3 Day AI Bootcamp | Certificate of Participation AI Prices Analyzer, GC University | Volunteer Core Committee, BDZB Nonprofit Foundation | AI Job Oriented Skill Development Training | Artificial Intelligence | Job Oriented Skill Development Training
